Education

Academlo	–	Web Development Full Stack	– November 2022 - At The Moment
Espam Mfl	–	Computer's Science	– February 2020 - At The Moment
U.E.A.S.H	–	IT technician	– April 2017 - January 2020

My Projects

E-commerce
December 2022

It is an application where I work as a team, therefore I learned to share and exchange ideas as a team, and it was great.

App Rick And Morty
January 2023

It works by consuming the api from the famous rick and morti series. We can use the app from any device because its design adapts .

weather app
February 2023

Necessary to know if it will rain while we travel to work, this app consumes an API that predicts the weather in real time.

All Applications are Developed in React js , Css , Tailwind , Html , and Axios .

There are more projects in my portfolio, take a look ;)

Work Experience

Bootcamp of programming
I learned the best programming techniques and worked on various projects which are in my personal portfolio.

NOV 2022 - APRIL 2023

CompuStore services
I did my internships there, where I learned topics related to the internet, web pages, software development, etc.

MAY 2019 - NOV 2019

Radison restaurant
It was not related to technology but I learned how the business works, how to deal with customers, listen to what they need, among other things that make a good customer experience.

FEBRUARY 2020 - JULY 2020
